DETAILED ACTION

1. Applicant's arguments with respect to claims 1, 3-7, 9-13, 15-16 and 18-24 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3-7, 9-13, 15-16 and 18-24 are rejected under 35 U.S.C. 102(b) as being anticipated by an article by PR NEWSWIRE related to BuildPoint.com .

PR NewsWire discloses that BuildPoint.com launches a Web-based Business to Business Solution system and method for facilitating a request for proposal (RFP) in an electronic market place. In the system and method of BuildPoint.com, there includes functions of:

Posting the RFP in an electronic marketplace;

Communicating a portion of the RFP to at least one secondary marketplace participant from a plurality of primary and secondary marketplace participants, wherein the primary marketplace participants are general contractors and the secondary market participants are subcontractors and wherein the subcontractors submit proposals on particular components of the RFP in which they specialize;

Providing access to the RFP to the plurality of primary and secondary marketplace participants, wherein access to the RFP is utilized by the at least one secondary marketplace participant from the plurality of primary and secondary marketplace participants to generate a proposal for the portion of the RFP; and posting the proposal in the electronic marketplace.

Applicant is directed to the entire two-page article.

The proposal is also restricted to specific parties.

As bids or proposals are being submitted, modified versions of the RFP is being generated. The marketplace is a public marketplace such as the Internet and is also a private marketplace of secondary and primary participants.

The at least one secondary marketplace participant collaborates with at least one of the plurality of primary and secondary marketplace participants to generate the proposal for the portion of the RFP and access to the RFP by the plurality of primary and secondary marketplace participants enables the plurality of primary and secondary marketplace participants to propose various solutions enabling alternative work breakdowns for at least a portion of the RFP.

See the article.

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3692
